

Home Elevator

If you're looking for affordable luxury, you'll appreciate its simple sophistication—no upgrades required. If you're designing a gorgeous showpiece for a once-in-a-lifetime custom home, you'll love the unlimited customization that's available.

Our home elevator is designed to exacting commercial standards and engineered it to last. Our attention to detail can be experienced in the exquisite finishing of the interior of every cab, as well as the safe and smooth ride.

- Maximum travel distance of 60' (6 stops), maximum load of 1500 lbs.
- Gentle stops and starts, smooth ride and quiet operation.
- Endless options to showcase your home's design.
- Components can be housed in a small closet to conserve space.
- Easily customized.
- Uncomplicated installation saves time and money on your Project.

SAFETY

- Precision automatic leveling at each landing ensures the elevator meets the floor exactly.
- Invisible infrared light curtain to automatically open the doors if an object is in the way.
- Emergency battery-powered lowering to the main floor.
- Emergency battery-powered lighting.
- Emergency manual lowering.
- Emergency stop switch in cab.
- Emergency alarm button in cab.
- Telephone box in cab (phone installed separately).
- Interlocks at every landing door.

FEATURES

QUICK FACTS

Smooth, quiet ride. The highly efficient 1:2 cable hydraulic drive system and 4-coil super-hush pump offer a smooth ride with softer start and finish.

Standard specs. Rated load of 1000 lbs., dimensions of 36" x 48", height of 84", speed of 40 feet per minute and travel distance of 50' are standard, and can all be increased.

Cab interior. Standard finishes include walls in flat, unfinished MDF or unfinished maple or oak panels; a rounded stainless steel car operating panel (telephone box and digital position indicator included); and 1.5" rounded stainless steel handrails. Other standard features are a solid ceiling with automatic LED lighting, a transparent accordion gate with invisible infrared light curtain for safety and a double plywood floor ready for your design touch.

Hall stations. Two stainless steel illuminated hall stations are included.
